Wichita County
TCEQ Full Scale Verification Report for the Emergency Direct Potable Reuse Plant
Follow-up – First Set of Follow-up Data

Dear Mr. Klumpp,

On March 28, 2014, the City of Wichita Falls submitted its Full Scale Verification Report to the Texas Commission on Environmental Quality (TCEQ). Due to contract laboratory analysis times, the Full Scale Verification Report was missing the Day-30 Total Culturable Viruses, the Day-End Radionuclides, the Day-End Total Culturable Viruses and the Nitrite from the last week of the Verification.

This letter is to submit follow-up data that has since been received by the City from its contract laboratories. You will find enclosed, replacement sheets for locations that monitored for:

Day-30 Total Culturable Viruses (TCEQ 1J, 10J, 20J, 23J, 28J & 40J)
Day-End Radionuclides (TCEQ 1J, 20J, 23J, 28J & 40J)
Daily Nitrite from March 4th through March 11th (TCEQ 28J)

We have also included replacement sheets for changes that were relevant in Section 4 of the introductory portion of the Report.

CITY OF WICHITA FALLS

4801 Big Ed Neal Drive, P.O. Box 1431, Wichita Falls, TX 76310 t: (940) 691.1153 f: (940) 691.4121

As of the date of this letter, the City has not received the Day-End results for Total Culturable Viruses from its contract lab. Once those results are received, the City will submit a Final Report Follow-up.

The City of Wichita Falls appreciates your evaluation of this project. If we may be of any further assistance, please do not hesitate to contact me at (940) 691-1153.

Sincerely,

A handwritten signature in blue ink, appearing to read 'D. K. Nix', with a long horizontal flourish extending to the right.

Daniel K. Nix
Utilities Operations Manager
City of Wichita Falls
