Thanks Daniel. Supplies are being ordered today for delivery to Cypress WTP this week. Is there someone in the Cypress WTP lab that I can call to discuss a few items that will help us prepare our testing protocol for next week?

Hi Daniel –

To follow up on our phone call this morning, Adam and Willem at Trojan UV are packaging up a UVMax pilot reactor to send to Cypress this week. Can you *reply all* with the correct shipping address, phone number, and the receiving party at the plant?

Adam / Willem –

Before shipping the reactor, can you send out an included parts list for the shipment? As well as the tracking number?

Thanks,

Mike
