David,

That shouldn't be a problem. If they have not arrived by 5 PM, I will let the Operators know to keep an eye out for them so they can open the gate.

Hi David –

Kyle will be delivering wastewater effluent from Lawton to Cypress this afternoon after our meeting. It may be 5 pm before he can get there. His cell phone number is [\(405\) 465-4128](tel:4054654128) in case you need to reach him this afternoon.

-Mike

We had some issues with oxidant demand/dosing and had to regroup a bit. We are resuming tomorrow morning. We were able to find a cap to seal the sensor port, and have had no further issues with that part.

Hi David, Mike,

How did the testing go last week? How did you resolve the sensor port issue?

Adam

Just wanted to confirm that we are assuming we can adequately plug the monitor port and plan to move forward with testing in the morning. We have some ideas and I'm confident we can make it work. I'll provide an update tomorrow.
