Russell: I just received this response from Joel at TCEQ. I'll keep you posted as I hear anything else. My schedule is pretty flexible over the next two weeks, so hopefully we can still get a meeting arranged.

David,

Thank you for your email. The TCEQ Wichita Falls DPR Project Team is deep in their review of your submittal to incorporate Kemp water back into the Cypress Facility. We've been discussing how the TCEQ 8/5/14 letter will need to be modified to account for this change, as well as changes required by the recent incorporation of UV disinfection into the treatment train. We believe that a meeting between yourself, the City, and TCEQ will be more productive once TCEQ staff get further along with their review. I propose that we wait to discuss setting up a meeting until next week. We will work with you to try to accommodate holding the meeting before Texas Water.

Thanks,

Joel

Good morning, Joel. I wanted to check in with you and see if it was appropriate yet to schedule a meeting to discuss the Wichita Falls proposal to resume use of their Lake Kemp supply. The City is hopeful a meeting might be scheduled before the Texas Water Conference. The City and I are pretty flexible over the next two weeks (weeks of March 30 and April 6) with the exception of April 7/8. Please let me know if there is anything I can do to facilitate review of the proposal.

Regards,

DAVID SLOAN / FREESE AND NICHOLS, INC.

David,

Thank you for your email with the scanned copy of the submittal package for the City of Wichita Falls to incorporate Lake Kemp as a source at the Cypress Water Treatment Facility. We look forward to receiving the hard copies in the mail. You state that the City would like to schedule a meeting with TCEQ staff to discuss this submittal. We are happy to meet with the City to discuss this submittal, but request that we be allowed time to review the materials first. As we've done for the City's other DPR-related submittals, we will expedite our review of this. I will contact you to schedule a meeting with the City once the TCEQ Wichita Falls DPR project team has reviewed and discussed the current submittal.

Sincerely,

Joel

Joel & Vera:

Attached is the submittal package for the Wichita Falls Lake Kemp supply integration, as we discussed at our meeting in your offices in January. We are also providing 3 hard copies by mail. Included are the following:

1. Transmittal letter.
2. Sealed Engineering Report.
3. Updated CT studies (for River Road WWTP source and Headquarters Road PS source [Lake Kemp])

4. Proposed Modifications to DPR Conditions (with explanatory comments)
5. Plans & specs submittal review form
6. Supplemental pump station drawings
7. Pump specification

As noted in the transmittal letter, the City is eager to incorporate this source and would welcome a meeting with your staff to discuss this and work out any details. Please contact me if there are questions regarding the attached documents or the overall plan.

Best regards,

**DAVID W. SLOAN, P.E., BCEE**
