Everyone

Linda called late yesterday to inform me the draft letter has not been approved yet, ie we are not going to get to see it before our conf call on Thurs. They intend to outline the contents of the letter with us, give us an opportunity for input. As I understood the conversation, we would still get another opportunity to seek revisions and clarification prior to the final version.

The new letter will be a re-write of the Aug approval letter in its entirety, so we will want to be very careful in the review to ensure the changes only involve the addition of the Kemp water, and the addition of the UV.

Is was our understanding the City would receive a copy of the documentation, "letter", from TCEQ prior to this call.

Could you please forward the information, so we can be better prepared.

Thanks
